Introduction to Software Development

Building smart solutions for businesses

Bringing innovation to every project

Automating business processes efficiently

Abacus Soft is a leading software company based in Kosovo, dedicated to delivering cutting-edge solutions that empower people, businesses, and individuals to thrive in the digital age. At our company, everything revolves around excellence – safeguarding, driving, and setting trends in the digital environment. We comprehend the entities, philosophies, approaches, demands, and goals of our clients; therefore, we excel in coding their visions into reality.

Why Software Development Matters

At AbacusSoft, we create modern software solutions that help businesses work faster, smarter, and more efficiently. Our goal is to transform ideas into powerful digital systems that improve daily operations and support long-term growth.

We specialize in developing custom web applications, business management systems, ERP solutions, audit platforms, and modern websites tailored to each client's needs. With innovative technology and practical solutions, we help companies simplify processes, increase productivity, and stay competitive in the digital world.

➔ Improves efficiency

We develop smart systems that automate daily tasks, reduce manual work, and improve overall productivity for businesses and organizations.

➔ Solves real problems

Our software solutions are designed to address real operational challenges with reliable, scalable, and user-friendly technologies.

➔ Connects people

We help businesses digitally connect teams, services, and customers through modern web and software platforms.

HR Management Platform

Attendance & Payroll

Modern system for managing attendance, leave requests, payroll, automatic calculations, and the efficient organization of human resource processes within a company.

Modern and advanced platform for managing human resources, attendance, payroll, finance, projects, support tickets, and company assets, designed to automate daily business processes and improve workflow organization across all departments.

The system enables efficient employee management, performance monitoring, financial control, project and inventory organization, as well as real-time analytical reporting, helping companies increase productivity, transparency, and operational efficiency within a single centralized and secure platform.

HR & Employee Management

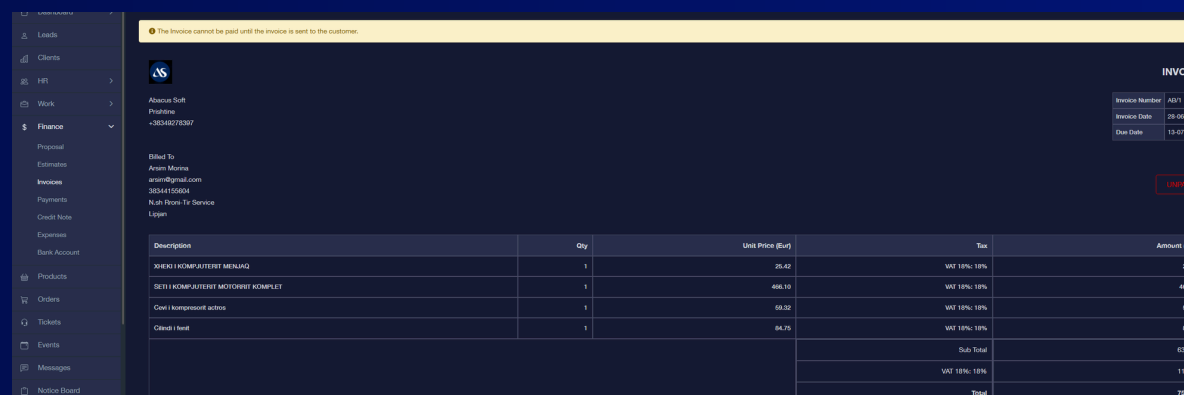

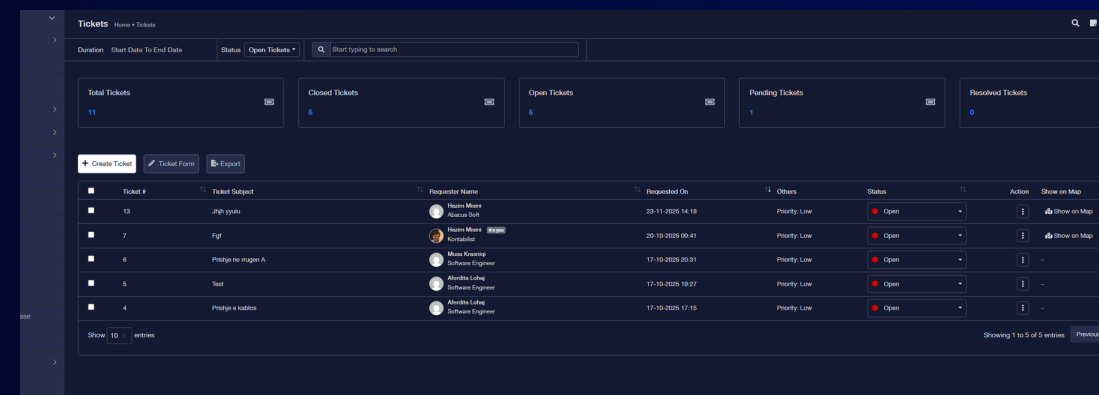

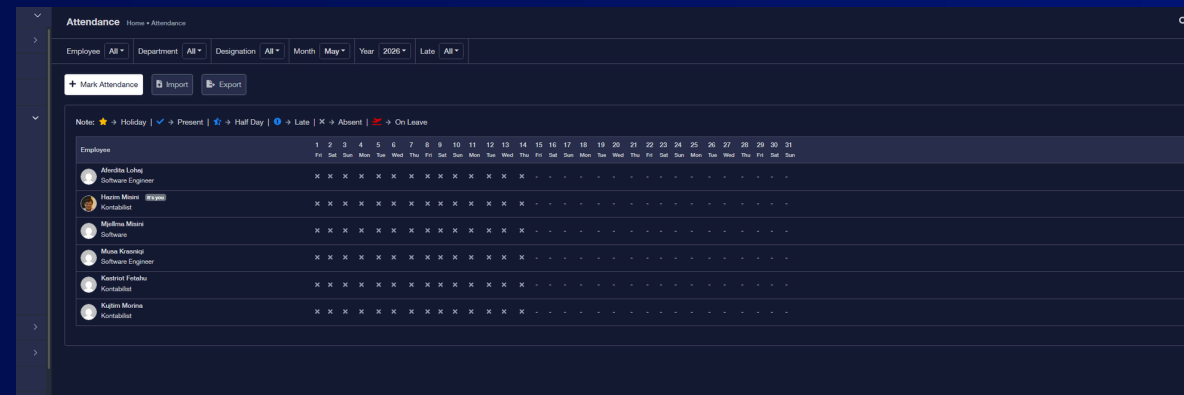

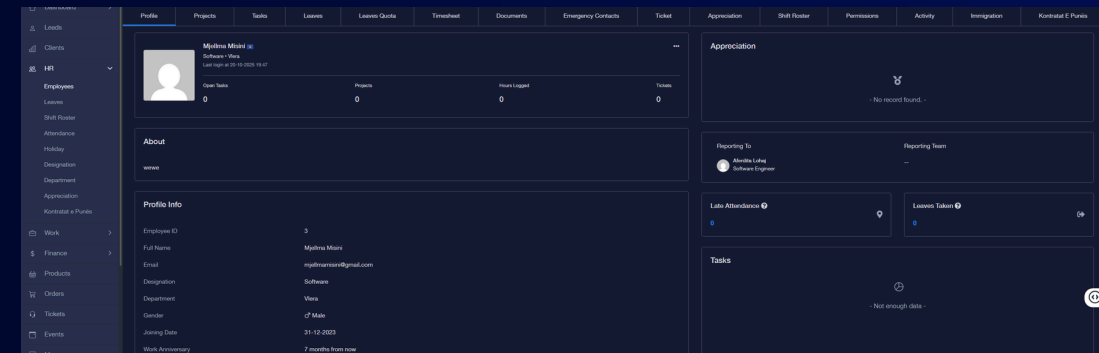

Modern system for managing staff, contracts, roles, and automating human resource processes.

Finance & Reporting

Module for managing finances, invoices, expenses, payments, and generating analytical reports for better financial control.

Projects, Tickets & Assets

Module for managing projects, support tickets, equipment, and inventory in an organized and efficient way.

Restaurant Management System

The screenshot displays the website for Infinit Food & Drinks. At the top, there is a navigation menu with links for RESTAURANT, BRASSERIE, BAR, PRIVATE EVENTS, WHAT'S ON, GIFT VOUCHERS, and BOOK NOW. Below the menu is a large hero image of a woman smiling. A paragraph of text describes the restaurant's philosophy: "In the heart of Prishtina, Infinit Food & Drinks, established in 2008, represents a distinctive gastronomic destination where elegance, flavor, and hospitality come together in perfect harmony. We are the ideal place for every occasion - from a quick coffee in the rhythm of the day, a relaxing afternoon tea, to carefully curated food and wine menus that turn every visit into a unique experience. Our kitchen blends modern tastes with classic influences, while our wine selection perfectly complements every dish. Our goal is to create unforgettable gastronomic experiences, where every guest feels truly welcome and every moment gains meaning. Infinit Food & Drinks - where flavor knows no limits and every visit becomes a memory."

Below this, there are three main sections:

- Infinit Brasserie:** "Tables filled with vibrant plates, fresh bread, flavorful dips, curated wines, and dishes made for sharing. Welcome to the brasserie at Infinit Food & Drinks - a relaxed and lively space where great food brings people together." Includes a "VIEW MORE" button.
- Infinit Restaurante:** "Setting, exceptional flavor, and a passion for quality. A distinctive dining experience at Infinit Food & Drinks." Includes an image of a dining room.
- Infinit Tower Restaurant:** "INFINIT Tower Restaurant creates stunning dishes using some of the finest seasonal ingredients. With an extensive wine list, carefully curated by an expert team, INFINIT Tower Restaurant offers contemporary dining paired with beautiful views in the heart of Prishtina. The restaurant is perfect for... those who enjoy fine dining, those seeking a special experience, or a memorable celebration. From birthdays and various events to a romantic dinner, INFINIT Tower Restaurant is the right place for every occasion. If you have any food allergies, please inform our service staff before ordering so we can serve you with care and ensure your safety." Includes a reservation form with fields for "Selected" (Thu 14 May - 2 Guests), "Date" (Thu 14 May), "Guests" (2), and a "Search" button. Below the form, it says "Experience by SEVENROOMS".

At the bottom, there is a "Menu" section for Infinit Tower Restaurant, listing "Seasonal Set Menu", "Tasting menu", "Brunch Menu", "Group Menu", "Children's Menu", and "Wine Menu". The "Brunch Menu" is highlighted, with a note: "Brunch is served at Infinit Food & Drinks, Monday to Sunday from 10:00 am to 2:00 pm. €50 per person. We also serve brunch with fresh juices. Please note: Brunch dishes are freshly prepared on the day. Booking in advance is recommended, as we cannot guarantee availability for walk-ins. Vegetarian brunch options are available. We do not offer fully vegan, gluten free, or children's brunch options, and some dietary adjustments may not be possible." There is also an "Other" section with a drink description: "Freshly made rhubarb and vanilla cordial, shaken with vodka and rhubarb liqueur, all charged with Louis Roederer, England Sparkling, Rosé, Brut, NV" priced at 18.5.

“Infinit Food & Drinks is a modern restaurant and hospitality platform with a powerful admin panel designed to manage menus, customer orders, table reservations, events, staff operations, inventory, payments, and daily restaurant activities in one centralized system.

The platform helps restaurants improve service quality, automate business processes, monitor performance in real time, and deliver a modern dining experience through an efficient, secure, and user-friendly management solution.

Abacus Audit Platform

➔ Audit Planning and Management

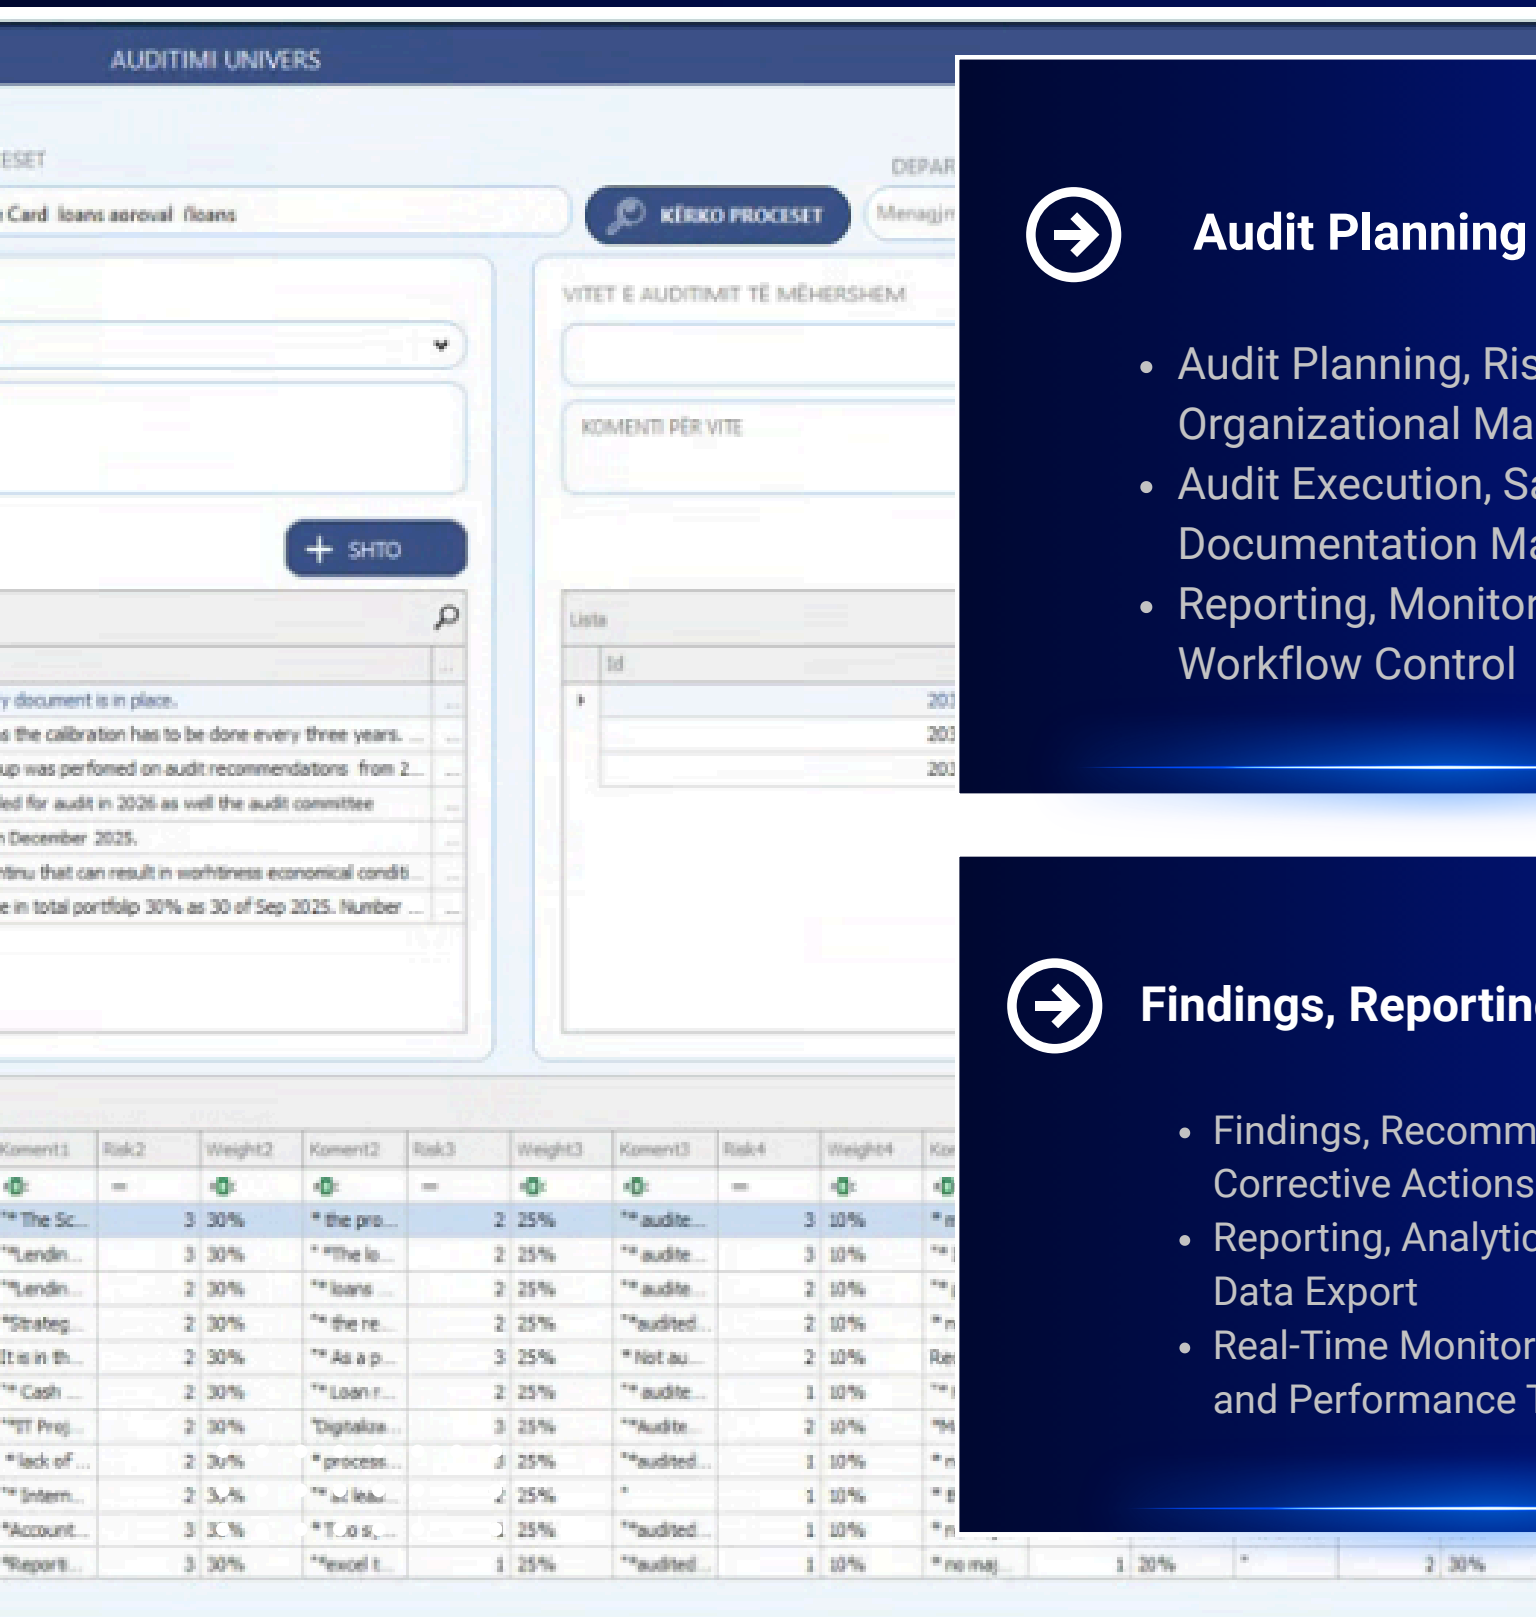

- Audit Planning, Risk Assessment, and Organizational Management
- Audit Execution, Sampling, and Documentation Management
- Reporting, Monitoring, Analytics, and Workflow Control

➔ Findings, Reporting, and Monitoring

- Findings, Recommendations, and Corrective Actions Management
- Reporting, Analytics, Audit Trail, and Data Export
- Real-Time Monitoring, Notifications, and Performance Tracking

A modern platform designed to manage internal and external audit processes, including audit planning, risk assessment, audit programs, sampling, evidence documentation, and workflow management. The system helps organizations improve efficiency, automate processes, and maintain better control over audit activities.

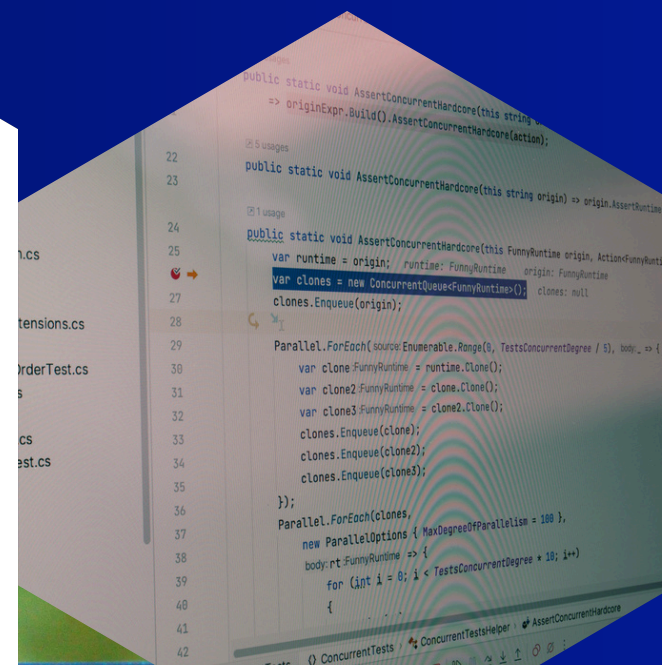

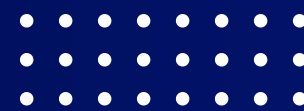

The platform provides real-time monitoring of findings, recommendations, and corrective actions through interactive dashboards and automated reporting tools. It also supports document management, audit trails, notifications, electronic approvals, and export of reports in PDF, Excel, and Word formats.

Conclusion

At AbacusSoft, we are committed to developing modern, secure, and high-performance software solutions that help businesses and institutions achieve digital transformation and optimize their operations. With experience in enterprise systems, audit platforms, ERP solutions, web platforms, and custom software development, we deliver professional and scalable technologies tailored to each client's needs.

We focus on quality, efficiency, innovation, and long-term partnerships, ensuring that every project delivers real value and sustainable growth. Our goal is to create reliable and modern systems that improve performance, automate business processes, and increase operational efficiency for organizations.
